

## INSTRUCTIONS

**MICROSOFT WINDOWS 10 HOME****1PC/2PC/3PC/4PC/5PC - 32 & 64Bits****System Requirements:**

-  1 gigahertz (GHz) or faster 32-bit (x86) or 64-bit (x64) processor\*
-  1 gigabyte (GB) RAM (32-bit) or 2 GB RAM (64-bit)
-  16 GB available hard disk space (32-bit) or 20 GB (64-bit)
-  DirectX 9 graphics device with 1.0 or higher driver

Beware: This is an OEM version, which means that this product has been delivered together with another PC. It is an original software, but sometimes it can have problems with the ONLINE activation. Therefore, we advise you: Try the ONLINE activation 2 or 3 times (if it works, please ignore the next steps).

**Please take notice: You need a stable internet connection.**

**1. Online activation:** If you already have installed Windows 10 Home Version or if you have the installation USB/DVD, please try the activation with them.

Make sure that your Windows Version is exactly **"Windows 10 Home"**, any other variation like **"Windows 10 Home N"** or other will not be compatible with the license key. In case the installation is new or if you want to reinstall your Pc please continue with step 2.

**2. New Installation:** If you are making a new clean install please download the correct version using the Microsoft Media Creation Tool and burn it into a DVD or create a USB Boot Device.

**MS Media Creation Tool**

(If your PC/laptop has over 4 GB RAM, we recommend the 64-Bit-version)

## INSTRUCTIONS

### Download Windows 10

Looking to install Windows 10 on your PC?

To get started, you will first need to have a license to install Windows 10. You can then download and run the media creation tool. For more information on how to use the tool, see the instructions below.

[Download tool now](#)

[Privacy](#)

3. Microsoft Creation Tool: With this Microsoft-Tool you can download different versions of the program, please choose Windows 10 home (**You have to install Windows 10 Home first 32 Bit or 64 Bit, then you can make the upgrade to Pro if desired with a new Windows 10 Pro Key**).
4. After the download: Restart your PC/Laptop with the installation media. Make sure you have properly configured your BIOS/UEFI to boot from the DVD/USB drive. Also additional configuration may be needed to proceed with Windows installation. Please refer to your motherboard / laptop manual.
5. Installation: Once properly booted from the installation media please follow the installation wizard to complete your Windows installation. When required please apply the license key to activate your product.

**You can make the phone activation as well: From USA and Canada: (888) 352 7140 / outside USA and Canada: (716) 871 2781 From United Kingdom: (0) (800) 018 8354 outside UK: +44203147 4930 Try this in case the online activation didn't work.**

### Activation for keys 2/3/4/5 PC

**If your key has more activations, please follow the steps above again on the remaining devices.**

*We wish you a successful activation. If you have any troubles or questions regarding the install and activation, please contact our clients support. We will help you as soon as possible.*
